Experience

Summer 2008
Eat Big Fish, London
England
Freelance

I combined skills in a collaboration
with illustrator Toby Triumph to
create a 3 minute animation. We
worked to a tight deadline and
the company were so pleased
with the outcome that they invited
us to do a second animation
which we have just completed.

Spring 2008
Mytton Williams, Bath
England
2 weeks placement

I was working as part of a 2 person
team developing their website,
taking their initial designs and
turning them into a live website.
Whilst the website had been
designed by them we were
allowed creative input and learnt
a lot about CSS and making
websites work across different
browsers and platforms.

Summer 2002
Standard Aero, Winnipeg
MB Canada
1 week work experience

I worked in the marketing
department helping with the
photoshop jobs that came their
way. I designed a letterhead,
business card and several A5 maps
of each complex the company
owned.

Skills

Illustrator, InDesign,
Photoshop, Flash,
Dreamweaver, HTML,
Photography, Bookbinding,
Basic After Effects and
Some Action Script.

Friendly, enthusiastic, hard
working, very organised,
multi-tasker. I'm also quite
good at making tea and
coffee.

Profile

My degree in Graphic
Communication has
allowed me to pursue many
paths including print and
digital design, which has
enabled me to discover my
love for making animated
and interactive pieces
using Adobe Flash and
After Effects.

I am competent at using
the computer but enjoy
exploring other paths to
create something that is
not solely a digital piece.
This is why I love making
things, producing tactile
objects that can then be
taken onto a computer to
produce a final outcome.

I am very keen to learn
new skills, techniques
and approaches and so
am open to constructive
criticism. I am an
enthusiastic worker and
able to work fast and
diligently to deadlines
solely or as part of a team
creating dynamic and
exciting outcomes.
